

The Women's Bar

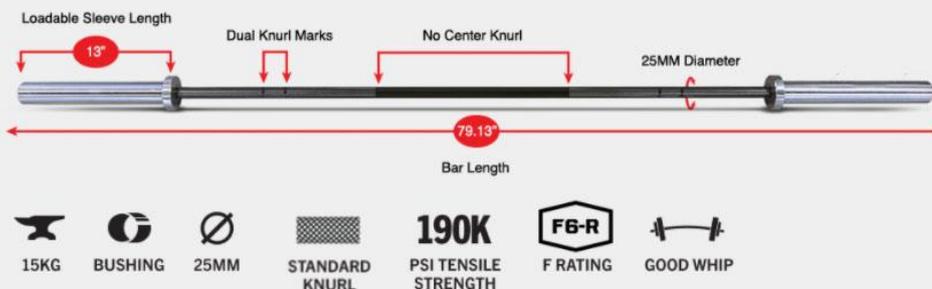

The latest variation of our 15KG The Women's Bar introduces a new, Black E-Coat shaft finish. This electrically applied coating was first popularized in the auto industry for its reliable coverage, adhesion, and corrosion resistance, and it's gained even wider favor for its environmental benefits, producing little to no HAPS (Hazardous Air Pollutants) or VOCs (Volatile Organic Compounds).

The Women's Bar

The latest variation of our 15KG Women's Bar introduces a new, Black E-Coat shaft finish. This electrically applied coating was first popularized in the auto industry for its reliable coverage, adhesion, and corrosion resistance, and it's gained even wider favor for its environmental benefits, producing little to no HAPS (Hazardous Air Pollutants) or VOCs (Volatile Organic Compounds).

Like all Women's Bars, the E-Coat model is fully machined and assembled in CHINA. It includes a 190,000 PSI tensile strength steel shaft, dual knurl marks (no center knurl), and bright zinc sleeves. The hybrid knurling pattern offers a firm but comfortable grip on both Powerlifts and Oly lifts, and quality bronze bushings help create the perfect balance of rigidity + natural whip.
